

OUR AMAZING WORLD

BRITISH COUNCIL
INTERNATIONAL ACTIVITY-1
PRIMARY SECTION (Std. IV, V)
MONTH: MAY, 2023

All species shown here are protected by CITES

A decorative border surrounds the slide, featuring various tropical elements: a red fish in the top left, a parrot in the top right, a grey fish in the middle left, a brown bear in the middle right, and a red crab in the bottom center. The background is white with green foliage and palm fronds scattered throughout.

AIMS AND OBJECTIVES

- **BCM School aspires to create global citizens. Therefore continuing British Council International Activities, The theme selected for primary kids was “ Our Amazing World.”**
- **The objective of the activity was to encourage the students about bio-diversity found in India and DR Congo and to develop a global perspective in appreciating the natural diversity and preserving the same.**

The background of the slide is a vibrant, colorful illustration of a tropical forest. It features various types of green foliage, including palm trees and broad-leafed plants. Several animals are depicted: a red parrot in the top left, a blue and yellow parrot on the left side, a brown monkey on the right, and a brown bear at the bottom right. The overall scene is bright and lively, representing a rich biodiversity.

LEARNING OUTCOME

- **At the end of the activity the students were able to.....**
- **(Knowledge).... gain understanding about different types of forests and wildlife found in India and DR Congo.**
- **(Skill)....evaluate and analyse the importance and usefulness of biodiversity at a global level**
- **(Attitude)....develop a sense of appreciation and gratitude towards the nature and responsibility to preserve the same.**

- 
- **The activity progressed in three steps:**
 - **1. Let's know our world**
 - **2. Biodiversity in a glance**
 - **3. Recollection**

LET'S KNOW OUR WORLD

- **"Biodiversity is the greatest treasure we have....Its diminishment is to be prevented at all costs. If we pollute the air, water and soil that keep us alive and well, and destroy biodiversity that allows natural system to function, no amount of money will save us. In this activity students of class IV and V were provided age appropriatr knowledge about the biodiversity found in India and DR Congo. They also learnt about various programmes initiated by the countries to conserve the same.**

LET'S KNOW OUR WORLD

- Students learning about "Our Amazing World"

BIODIVERSITY IN A GLANCE

- On the basis of knowledge gained students of class IV prepared collage on the theme:
- “Biodiversity -Our Amazing World.”

RECOLLECTION

- For a deeper understanding of the concept, students of std. V were motivated to prepare for Power point Presentation on the theme:-
“ OUR EXTINCT SPECIES”.
- Many students showed interest and with the help of computer teachers prepared informative PPTs and shared their knowledge with their peers.

RECOLLECTION

- Young BCMites displaying the gathered information about some extinct species and spreading awareness among their peers .
