

BRITISH COUNCIL ACTIVITY –
THEME- BIODIVERSITY CONSERVATION
COUNTRIES- INDIA, JAPAN & NIGERIA
MIDDLE SECTION
MONTH- DECEMBER

FROM AGREEMENT TO ACTION: BCMITES BUILT BACK BIODIVERSITY

To raise an appreciation and deeper understanding of species, ecosystems and the interconnectedness of the living world, **BCM School, Chandigarh Road, Ludhiana** conducted an abundance of activities on the theme “**Biodiversity Conservation**” under British Council during the month of December. The subject experts acquainted the the young minds of class-VI, VII&VIII with the ways to protect and preserve the wealth and variety of species, habitats, ecosystems, and genetic diversity in the countries like India, Japan and Nigeria. They also informed the students how to treat all animals, plants, and ecosystems with kindness and respect. The emerging artists of Class - VI manifested their artistic expertise in ‘**Collage Making Activity**’ and made collage on different methods of conserving biodiversity. Furthermore, the young journalist of Class -VII wrote ‘**Report**’ on the economic aspects of the issue understudy. They also described existing biodiversity interests, protected species, and any possible impacts on them. They also included the details of measures proposed to mitigate or compensate for the impacts. The buddy scholars of Class – VIII made ‘**Scrapbook**’ wherein they exhibited their gained knowledge and express the problems and methods of conservation in the three different countries understudy. The students understood their responsibility and thereby took the pledge to avoid the mismanagement, misuse and destruction of biodiversity.

SCRAPBOOK

Conservation areas
Establish and maintain protected areas to preserve habitats and eco systems.

Sustainable practices
Encourage sustainable resource management in agriculture, forestry and fisheries to minimize negative impact on diversity.

Regulations & policies
Implement and enforce laws that regulate activities affecting biodiversity such as habitat destruction and illegal wild life trade.

Education & awareness
Raise public awareness about the importance of biodiversity and the impact of human activities on ecosystems.

BIODIVERSITY
is essential for the processes that support all life on earth, including humans. Without wide range of animals, plants and micro-organisms, we cannot have the healthy ecosystems that we rely on to provide us with the air we breathe and the food we eat. And people also value nature.

PLEDGE
"I pledge to actively contribute to biodiversity conservation & will respect and protect the diversity of life on earth, supporting sustainable practices, raising awareness and fostering a deep connection with nature."

Habitat restoration and connectivity: create wildlife corridors to facilitate the movement of species and maintain genetic diversity..

sustainable forestry practices: certify and support forestry operations adhering to sustainable standards.

Importance of Biodiversity

BIODIVERSITY SO IMPORTANT IN NATURAL WORLD? ENCOURAGE PLANTS TO PROTECT PLANTS AND ANIMALS FROM HARMFUL HUMAN BEHAVIORS.

Importance In Biodiversity ::

...to ecosystem productivity... no matter how small... important role to play.

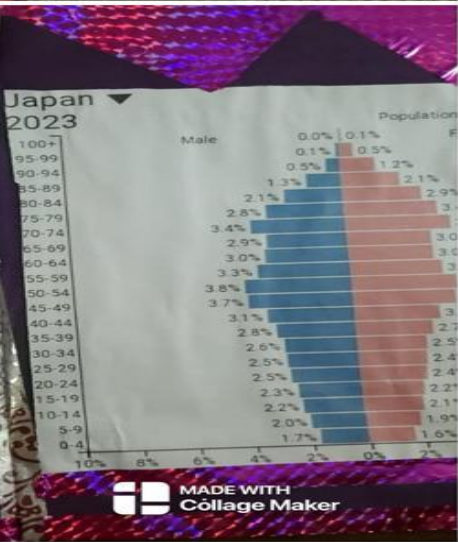

Role of India Harmful ::

Biodiversity involves protecting new leaves but Indians destroy rather they destroy the tree name of development... They destroy forests, hunt birds eat flesh which is our future. People will make paper out of it... "Save Trees" on it... how hard we try to ignore... but universe is there to remind us everything.

Population on fell by about one million during... the population of Stockholm... to shrink by over 25 percent in the

of Japan's Population
