## DEAR PARENTS

Holidays are time when we can connect with child in many ways. As you are your child's first teacher, you can encourage your child's love for learning by participating in many activities at home. Working together will help your child build confidence, learn to reason and develop skills necessary for his/her education.

- Play indoor games with your child.
- Let your child help around house doing small jobs like dusting, cleaning the tables, filling water bottles, watering plants etc.
- Encourage them to spend time with grandparents.
- Communication will play pivotal role in grooming the overall personality of the children. Converse with your child preferably in English.
- The child will be assessed for the neat handwriting, presentation, creativity and submission of the work on time.
- Parents can be facilitator at home but the work should be done independently by the child in his/her own handwriting.
- Take them out to the park to play. Watch their favorite movies together. Take them for an outing on lunch or dinner once a week so that the child also feels that it is funtime. Click pictures of these moments and make a digital collage of your memories and share it with your class incharge on whatsapp.
