DEAR PARENTS

Holidays are time when we can connect with child in many ways .As you are your child's first teacher, you can encourage your child's love for learning by participating in many activities at home. Working together will help your child build confidence, learn to reason and develop skills necessary for his/her education.

- Play indoor games with your child.**
- Let your child help around house doing small jobs like dusting, cleaning the tables, filling water bottles, watering plants etc.**
- Encourage them to spend time with grandparents.**
- Communication will play pivotal role in grooming the overall personality of the children. Converse with your child preferably in English.**
- The child will be assessed for the neat handwriting, presentation, creativity and submission of the work on time.**
- Parents can be facilitator at home but the work should be done independently by the child in his/her own handwriting.**

SOCIAL SCIENCE

Imagine a car has a limited seating capacity of 5 people. It can accommodate one more person which will create an undesirable situation for other passengers sitting in the car as each one of them will have to leave a small space for another person. Now, what if a couple of more people decide to board the same car. Even if they too accommodate themselves in the same car, the car will eventually break down after some time as it is carrying people beyond its carrying capacity.

Now, replace the car with our planet Earth and passengers in the car with the enormous number of people on this planet and think how far this planet would sustain if we keep on adding more and more people on this planet which already has a fewer number of resources.

“If the world is to save any part of its resources for the future it must reduce not only the consumption but the number of consumers”
