SAVE FOREST & SAVE NATURE

BCMITES GEARED UP TO PROTECT FOREST

To make the students sagacious towards nature , BCM school, Chandigarh Road, Ludhiana conducted numeral activities in collaboration with our partner school 'Government Comprehensive Girls Higher Secondary School, Bahawalpur, Pakistan' on the theme 'Forest and Deforestation' under British Council for the students of classes VI, VII & VIII during the month of November 2021. At first the expert, Ms. Sona Sood , acquainted the students with different types of forests in the world with the help of a PPT. The students also equipped themselves with the knowledge of deforestation, its causes, disastrous effects and its precautionary measures in the countries like India, Pakistan, Nigeria and Japan. Thereafter, the young minds of classes 6 exhibited their concerns & spread awareness by writing '*Slogans*' on the theme understudy . The students of class 8 showcased their love towards nature by 'Planting a Sapling' . The students of classes 7 made comparative study of the area of deforestation and harmful effects in the target countries with the help of bar graph as a part of 'Mathematics Analysis' . The young artists came up with very different & innovative ideas in making 'Paper Bags' from the waste papers. This activity intensified students' knowledge and research build capacities that will reduce deforestation and contribute to save forest.
