Whole-School Inspection Drive Promotes Positive Learning Culture

In a commendable initiative to uphold discipline, responsibility, and leadership across the school, house mentors and inspection teams undertook a comprehensive inspection drive across all the wings. This initiative, aimed at ensuring smooth functioning and promoting a conducive learning environment, included a range of structured activities.

- The house mentors actively oversaw various discipline-oriented tasks:
- Display Board Checking focused on evaluating the creativity and relevance of content.
- Uniform and Bag Checking ensured students adhered to the dress code and carried the necessary materials while maintaining safety.
- Selection of House Prefects was based on criteria such as discipline, leadership, and a sense of responsibility.
- Duty Allocation to selected prefects empowered student leaders to assist in managing school routines and maintaining discipline.

This whole-school inspection initiative effectively instilled values of discipline, hygiene, responsibility, and leadership across both wings. It fostered a culture of accountability, with students becoming more aware of their roles in maintaining a healthy and organized learning environment. With continued efforts and periodic reviews, the school aims to build even stronger habits that contribute to its vibrant and disciplined ethos.

Interactive Learning on Energy Conservation

As part of the ongoing Green School Project, the Eco Club conducted an engaging Zero Period activity for Classes IX and X focused on energy resources and conservation. The session began with a short, informative video that refreshed students' understanding of the importance of sustainable energy practices. This was followed by an interactive quiz where students picked chits containing questions, adding an element of surprise and excitement. The enthusiastic participation of students reflected their keen interest and awareness about the topic. Through the quiz, students reinforced their knowledge of renewable and non-renewable energy sources, learnt practical methods to conserve energy, and understood the significance of adopting sustainable practices for a greener future.

BCM School's Career Counselling Practice Receives National Honour.

BCM School proudly announces that Ms. Tarveen Kaur, Head - Outreach and Career Counsellor, has been recognised with the prestigious award for Best Career Counselling Practice in School. This award is a testament to her unwavering commitment to guiding students with purpose, empathy, and innovation.

The ceremony was graced by distinguished dignitaries including:

Prof. Surendra Gakhar, Vice Chairperson, Haryana Higher Education Council, Prof. (Dr.) Manpreet Singh Manna, Vice Chancellor, Chandigarh University

Special thanks to Mr. Komal Buddhiraja for curating a platform that celebrates excellence and collaboration in the field of education and counselling.

Van Mahotsav Observed at BCM School Chandigarh Road Foundational Stage

Van Mahotsav began on 15th July in the lush garden of BCM School Chandigarh Road Foundational Stage. The celebration was initiated by LKG students, who gently nurtured the plants across various corners of the school premises. Students brought saplings from their homes and actively participated in plantation activities, fostering a deep connection with nature. The initiative aimed to instill environmental responsibility and encourage a greener, more sustainable future.

Class Presentation of Primary Wing

Theme of Class
Presentation was Mobile
addiction .

Students of class IV-D
conveyed impactful
messages to use mobile
wisely through : Poem,
Nukkad Natak, Dance and
Group song.

Thought of the day:

“If you want to go fast, go alone. If you want to go far, go together.”

Health tip of the day:

Munch on walnuts or soaked almonds daily.

They're rich in omega-3 fatty acids, great for memory and concentration.

Book of the day:

The Invention of Morel by Adolfo Bioy Casares

A mind-bending novella that inspired sci-fi legends. On a mysterious island, a fugitive encounters hauntingly repetitive people—then learns they're echoes of a machine. A deep meditation on memory, perception, and love, this short Argentine classic fractures reality and asks: what's real, and what's just projection? It breaks mental barriers about time, consciousness, and existence in under 100 pages.
