

BCM SCHOOL CHANDIGARH ROAD

A Senior Secondary School of BCM Foundation Affiliated To CBSE, New Delhi

“Education is the most powerful weapon that we can use to change the world.”

– Nelson Mandela

Dear Parents Greetings!

With the imminent Annual Exams, the academic session 2022-23 is in its last phase and the school looks forward to the commencement of the new session soon. Accept my heartiest gratitude for your support and collaboration throughout the session and we expect the same enthusiasm from your side in times to come as well.

In 21st century dynamic world when every moment a new innovation in technology is evolving, we endeavour to provide ample opportunities to all the stake holders to innovate and think critically. This century is going to be a century of fast pace technology which will play a vital role in the teaching-learning process and will be an integral part of education. Keeping this in mind we have established innovation and tinkering lab, centre for talent development, experiential learning, and science-math labs. With all our modernized resources, we aim at creating successful and responsible global citizens through co-curricular and sports activities. The school not only provides top quality education in sync with CBSE parameters coupled with holistic growth of a child but also imbibes value based education synergized with modern technology. The focus is on identifying a child’s innate talents at an early age and ensures to groom his/her inner potential.

I feel confident that the school will continue this journey with elevated enthusiasm to provide a platform of all-inclusive learning to the young generation of learners and achieve the pinnacles of success which it reckons and aspires for.

“The worth and value of knowledge is in proportion to the worth and value of its object.”

- S.T. Coleridge

My dear students,

As you know that the Annual Exams for all the classes are around the corner. This time in the academic year brings variegated emotions for both parents and children. On one hand it brings exam related stress and anxiety and on other it makes you feel excited for being so close to passing another milestone and stepping into the next phase of your education.

I would like to give you some tips for examination.

- Take good sleep and nutritious diet.
- Keep the things organized as clutter around you may create clutter in mind.
- Make a proper time table and schedule.
- Keep Away from digital distractions.
- Do mild exercise/morning walk for 15 minutes.

Good Luck and blessings!
