Codes:

- a) 1-d, 2-a, 3-b, 4-c  
b) 1-c, 2-a, 3-b, 4-d  
c) 1-a, 2-b, 3-c, 4-d

**Part D – Answer the Following (Creative Answers)**

1. What values can we learn from people living in tough landforms like mountains or deserts?

2. “Landforms shape our lives.” — Explain this statement with an example.

3. How can students help protect landforms and their life forms?

### **Part E – Source-Based Question**

Read the passage and answer the questions below:

The Himalayas are home to many rivers and forests. People living here depend on terrace farming and tourism. The cold climate and steep slopes make transportation difficult.

1. Which activity is common in the Himalayan region?

2. Why is transport difficult in mountains?

3. What natural resources are found here?

### **Part F – Case Study Question**

Case: Ravi lives in the Deccan Plateau region. His father works in a mine, and they grow crops like millets and cotton. The area has uneven land and less rainfall.

1. In which type of landform does Ravi live?

2. What kind of crops are grown there?

3. Why is mining common in this region?

4. How does less rainfall affect life there?

### **Part G – Picture-Based Question**

Questions:

1. Identify the landforms in the pictures.

2. Which landform is best for building cities?

3. Which landform has the least vegetation?

4. Which landform attracts tourists for trekking and adventure?

**Map work:**

**Locate all landforms of India on the political map of India**
