BCM FOUNDATIONAL STAGE CONDUCTS LIFE SKILLS ACTIVITIES

To nurture essential life competencies and social awareness among young learners, BCM School Chandigarh Road Foundational Stage organized engaging Life Skills activities for the students of Nursery, LKG, and UKG.

In the Nursery class, children participated in an activity titled “Naming Your Emotions.” The objective was to help them identify and express their feelings appropriately. Through expressive games and discussions, the little ones learned to recognize basic emotions such as happiness, sadness, anger, and surprise, thereby developing emotional awareness and empathy.

The LKG students took part in the “Sorting and Pairing of Socks” activity. This hands-on task encouraged them to observe, compare, and match objects while enhancing their fine motor skills, concentration, and sense of organization.

Meanwhile, the UKG class explored the topic “Knowledge about the First Aid Box.” Children were introduced to the basic items kept in a first aid box and their uses. The activity aimed to make them aware of simple safety measures and the importance of being cautious during minor injuries.

These thoughtfully designed activities helped students gain confidence, self-awareness, and practical understanding of everyday situations, laying the foundation for responsible behaviour and independent learning.
