

1. Institutional Career Interaction: École Intuit Lab, Delhi

A detailed counselling session was conducted by Mr. Deepak from École Intuit Lab, Delhi, a prestigious French-origin design institution renowned for its global standards in creative education.

The session covered essential aspects including admission procedures, portfolio development, course pathways, and scholarship opportunities in design. Students gained valuable insights into evolving creative fields such as visual communication, UI/UX, animation, and branding. The interaction highlighted design as a promising and professional career choice with international exposure.

2. Exploring Pathways Beyond Classrooms: Mahindra University Session

To provide students with futuristic career awareness, a session on “Futures in Biotech and Startups” was held for Grade XI students. The resource persons, Professor Sen Gupta and Mr. Ashu Dewan from Mahindra University Hyderabad, shared insights into the rapidly advancing sectors of biotechnology, innovation, and entrepreneurship.

They emphasized interdisciplinary learning as a key to solving global challenges and encouraged students to adopt an innovative approach to education and career selection.

3. Future Leaders Program – Soft Skills and Teamwork Workshop

Under the Future Leader Program, an interactive learning session was led by Ms. Prabhsimran Kaur, Founder – Flamingo Academy, focusing on the importance of communication, adaptability, leadership, and collaboration.

Through engaging activities and real-life examples, the workshop helped students develop confidence, cooperation, and essential interpersonal skills required for success in academics and beyond. Students showed enthusiastic participation and demonstrated a strong willingness to enhance their leadership qualities.

4. Visit from Symbiosis Skills & Professional University, Pune

BCM School had the privilege of hosting Mr. Vrushab Tayde from Symbiosis Skills & Professional University, Pune. He highlighted the increasing significance of skill-based learning and industry-integrated education in shaping employable and career-ready youth.

The interaction exposed students to diverse new-age career avenues in applied sciences and technology-driven fields. The discussion aligned with the school's continuous efforts to prepare students for a competitive and skilled global environment.

5. Reading as Meditation: A Step Towards Mindful Learning

A special session on mindful reading was conducted under the **Future Leaders Program** with the objective of strengthening focus, patience, and reflective thinking among students. Students were guided on mindful reading strategies that promote deeper comprehension and mental calmness. A 21-day reading challenge was initiated, wherein every student will read a book daily and present a reflection-based report. This initiative aims to instill disciplined reading habits, enhance cognitive growth, and develop a positive relationship with books.

6. Burn Awareness and Safety Campaign – “Diwali Without Scars”

Ahead of Diwali celebrations, a preventive awareness session was conducted by Dr. Sheerin Shah from DMC Ludhiana to educate students on fire safety and immediate responses to burn injuries. Students learned about safe handling of fireworks, first-aid measures, and ways to ensure protective celebrations. The session aimed to promote a culture of responsibility and health consciousness, ensuring festivities remain safe for all.
