

BCM SCHOOL

"Our Principal, Mr. DP Guleria, was honored at the prestigious Speaking Minds Youth Conclave, an impactful event that convened thought leaders, policymakers, innovators, and youth who are shaping the future of society. This platform offered students an incredible opportunity to engage with eminent personalities such as the Education Minister, Olympiad winners, social activists, and entrepreneurs. A delegation of 25 students from our school enthusiastically participated, showcasing their critical thinking and communication skills in various panel discussions and interactive sessions. We are immensely proud to announce that Elina from grade XI was recognized for her outstanding contributions and earned the 'Best Interaction' award, a testament to her eloquence and insightful participation.

Our Career Counsellor Ms. Tarveen recently attended the annual conference at Ashoka University, where she engaged in a round table discussion with Vice-Chancellor Mr. Ali Imran about the growing significance of liberal arts as a pathway to futuristic careers. Additionally, a dedicated session was held on liberal education, emphasizing its role in fostering critical thinking, creativity, and interdisciplinary learning.
